- MySQL
- Machine Learning

Projects

Patient Centered Products LLC - Co-Founder

- Developing a clinical decision-support application to improve medication dosing and reduce acute kidney injury (AKI)
- Currently in negotiations with Wolters Kluwer for potential collaboration
- Bridging healthcare workflows with software solutions to improve clinical efficiency and patient safety

Bass Pro Phone Sale Firearm Transaction APP

- Designed and developed a tablet-based application to digitize firearm sales transactions, replacing inefficient handwritten processes
- Generated standardized PDF outputs, improving documentation accuracy and operational efficiency
- Built an intuitive UI tailored for low-technology users, reducing

training time and user error

Workout Builder

- Developing a mobile application to help trainers and workout programmers efficiently design, distribute, and manage workout programs with integrated user tracking
- Built entirely using Swift and SwiftUI for iOS, with plans to expand to Android and web platforms based on demand
- Implemented functionality allowing users to create programs, workouts, and exercises with customizable tracking variables for each exercise
- Utilizes SwiftData (SQLite) for structured data storage and management

EXPERIENCE

Cabelas - Wichita, Kansas — Gun Vault Specialist

March 2025 - Present

- Follow and understand current ATF regulations
- Monitor and coach team on SOPs for ATF regulations and Straw Purchases
- Handle firearms bound book for acquisition and disposition of firearms
- Monitor 4473 and 3310 forms for corrections
- Handle and track all store and federal firearm denies
- Purchase firearms for Bass Pro at local gun shows

Cabelas - Wichita, Kansas —Team Lead

January 2023 - March 2024

- Monitored team performance and provided constructive feedback to increase productivity, maintain quality standards, and comply with set procedures
- Worked with management team to identify areas of improvement and devised solutions based on findings
- Conducted orientation and training with new team members
- Build strong relationships with customers through positive attitude and attentive response to their inquiries or concerns
